

Fishpaws Wine of the Month June 2023

Juggernaut

Hillside Cabernet Sauvignon

California

Reg 24⁹⁹ WOM 19⁹⁹

Our grapes are grown in challenging conditions, where true grit and determination yield spectacular results.

Determined hillside Cabernet vines struggle to find purchase on steep, rocky slopes, where well-draining soils inspire roots to burrow deep in search of life-sustaining moisture.

Juggernaut wines harness the power of nature to produce robust, compelling wines as expressive as the powerful alpha-predators adorning our labels.
